Instructions

Travel to conferences, symposia, and special research opportunities is essential for the professional development of advanced research students. The University also benefits by being represented at such events. The Biology Major Office (BMO) has therefore established a program to supplement student travel when other funding sources are insufficient.

In order to assure that discretionary funds from BMO benefit the largest possible cross section of Biology Major undergraduate students, the highest funding priority will be given to students who are:

1. Giving their first paper or talk,
   -or-
2. Presenting just prior to graduation, since potential employers may also be in attendance,
   -or-
3. Invited to give major talks and are not offered funds from the meeting organizers,
   -or-
4. Offered to travel internationally, or to expensive meeting locations

If accepted, the Biology Major Office will provide travel awards up to $500 per trip. These funds are primarily for assistance with the cost of travel, particularly airfare. These grants may be awarded to Undergraduate Students for traveling once per fiscal year. The Biology Major Office cannot provide any retroactive reimbursements.

Applications must be received a minimum of one (1) month in advance of the travel date in order to help guide funding decisions. If your application submission is complete at the time it is received, a response will be received within 10 days. Please contact Ms. Andrea Smith at 352-273-0116 or andrealsmith@ufl.edu if you have any questions or need clarifications on the guidelines.

All documentation should be submitted electronically to:

Biology Major Office
Bartram Hall 214
